How to Install: Uninstall the current version of PCS by clicking on the Start button, all programs, Accessories and click on Edit menu and choose Remove. Click on Yes button when the message appears to uninstall the program. Download and install the trial version of PCS from the link below. Download and install the latest PCS patch for the program from the link below.
Launch PCS. Go to Options > Preferences > Check for Update > Check for Update... > Install PCS > Install. Once done, select the language you want to use PCS in. PCS will install on your computer now. Launch PCS. Start editing your music library. Enjoy! Notes: 1. Free Trial for PCS is currently not available for this version of PCS. If you like the trial version, please go to "Our Store" and buy a full version or donate if you are very pleased with the trial. 2. You can use the trial version for personal purpose only. 3. If you find any problems with the patch, please report it to the developer. Free-trial Tutorial Latest User Review
Reviewer: Domain Admin Date: 2012-06-23 22:00:12 Source: PCS General purpose music software I would not recommend this program. It has an extremely bad interface, some of the features are very different, the file size is horrible, and there are only 4 categories. To make matters worse, the program seems to only work with windows media player. It should be noted that all of these problems were readily apparent when I first installed the program. Now I have no way to remove it without reinstalling windows. I would expect a music software that is essentially free to be at least somewhat complete. If you want to use something free, make sure you know exactly what you are getting into. Otherwise you may end up regretting that decision.
